about us

Established in the early 1980s as Naushey khan nursery and now known as PLANTS WORLD is a PROFESSIONALLY MANAGED LANDSCAPE AND GARDENING COMPANY. The core business of the company is landscape gardening and supply of plants.

Landscape gardening business broadly includes garden designing, construction and maintenance of various gardens, waterfall, fountain and other water features and landscape gardening for residential townships, farmhouses, commercial and shopping complexes, hotels and resorts, golf courses etc and the business of plants supply includes selling of plants on retail and wholesale basis and supply of plants on rental basis.

professionally managed landscape and gardening company

The company is committed to promote and develop the best practice in management of plants, trees, bonsai and seasonal flowers in pots and also give professional consultancy services in landscape gardening. Using the latest technology and modern horticultural practices the company provide professional, independent advice and the highest quality of service nationwide.

our philosophy

"gardening easy, affordable and for everyone with total customer satisfaction"

our team

PLANTS WORLD has a team of professionally qualified and experienced landscape designers with innovative ideas who can create best landscape gardens and turn an outdated garden landscape into an environmental friendly, low maintenance and beautiful garden designs.

"We generate ideas which create best landscape gardens."

Our team of experienced, fully qualified professionals in landscape design can help you with all your landscaping needs from establishing new gardens to re-designing full garden and garden enhancements like replanting, garden irrigation etc.

Whether we are designing a new landscape garden or re-designing an existing site, the creative use of plants and plant selection, their types; pathways including decorative brick paving; feature walls, plant boxes, soil improvement and an effective water irrigation system are all important features in a modern landscape garden design.

EXPLORE THE GREEN WORLD

our various nurseries

We are the largest plants suppliers of North India.

PLANTS WORLD has more than 50 Acres of land devoted to Plants Nursery at JP NAGAR, GAJRAULA, UTTAR PRADESH. The nursery is situated in a pollution free zone where nature has given all her blessings. All types of plants (indoor, outdoor and potted plants), trees, palms, ferns and vines including making of bonsai are grown in the nursery with utmost care. These plants are then transported to all corners of India.

Our second nursery is in MEHRAULI, NEW DELHI known as PLANTS WORLD, BHARDWAJ FARM from where we supply plants exclusively to Delhi and NCR (Noida, Ghaziabad, Faridabad and Gurgaon).

From these well established nurseries we also supply plants on retail and wholesale basis and place them in various offices and commercial establishments on rental basis in Delhi and NCR region.

We also have Associate Nurseries in 24 PARGANAS and KOLKATTA in WEST BENGAL and RAJAHMUNDRY, ANDHRA PRADESH.

our services

Garden Landscape Design Services

Our garden designs gain inspiration from nature and endeavour to work within the natural contours plot using natural material and complimentary planting.

Our priority; however is to produce for each client a garden incorporating their individual requirements. To achieve this we will take client's achievable key elements. Together with our unique ideas, to form a harmonious natural styled whole.

Following initial construction, if our customer is happy to commission us, we will create design using 2D&3D computer programs for them. This enables their personal design to be viewed not only as a scaled plan but also as 3D images. Once design has been completed we will arrange a convenient viewing appointment, normally at our office. At this time we will explain and discuss the design, make any minor alteration, show sample of materials we would recommend and advise on plants type etc. We than provide a CD containing personal design and a copy of the scale plan to the respected client.

Our company is also happy to undertake construction on certain designs if available. However, client may like to hire their own contractor to complete their project. If this is the case we can offer any ongoing construction that may be required once contractors are on site. This is charged on visit basis as per client requirement. We also offer a full planting plan and supply service to compliment either your design or enhance your existing landscaping. This service will be subject to rather an individual quote or include within the total construction quotation depending on the client's requirements.

our services

Construction Services

PLANTS WORLD offers a comprehensive service for implementation of both hard and soft landscape elements which include:

- Site Clearance
- Earthworks and Grading

Corporate Social Responsibility of Plants World

PLANTS WORLD Nurseries is a leading name in the gardening industry however being a leader means more than being the most successful. It also means clearing new paths and setting an example concerning corporate social responsibility. While it is true that Plants World Nurseries is in the green, as in gardening business, we also want to continue to promote and work in an environmentally responsible and sustainable way. We want to establish ourselves as a company who informs the public about the sustainable issues. Whether it's about communicating the positive impact of planting a sapling/ tree, creating environment awareness amongst school children, colleges, resident welfare societies etc, passing on gardening tips at the retail level or distribution of free saplings we need to let the public know that not only do we offer gardening services but we are experts on green gardening.

Green Initiatives

- Creating environment awareness amongst people through celebrating "World Environment Day"
- Distribution of Sacred Saplings/ Plants like Tulsi free of cost in our nursery
- Environment Classes & Eco-Visits of School Children
- Organizing environment awareness programs through use of ICT, events, displays, campaigns etc
- Promoting Knowledge Gardening

Largest stockholder of Shrubs of diverse kinds adding multiplicity to the flora.

We are the Largest supplier of Date Palm in India. We guarantee highest survival rate.
