About Us

Our horticulture nursery was established in the early 1980s as Naushey Khan Nursery and is now known as Plants World. We are a professionally managed Landscape and Gardening Company. The core business of the company is Landscape Gardening and the supply of all types of gardening and horticulture plants in both wholesale and retail segments.
Our core expertise lies in landscape gardening, which broadly includes garden designing, construction, and maintenance of various horticulture landscapes and gardens. We are highly skilled in creating waterfalls, fountains, and other water features, as well as landscape gardening for residential townships, farmhouses, commercial complexes, shopping centers, hotels, resorts, and golf courses.

The main business of Plants World is plant supply, which includes selling plants on retail and wholesale basis, as well as providing plants on rental basis. The company is committed to promoting and developing best practices in the management of plants, trees, bonsai, large avenue plants, seasonal flowering plants in pots, and indoor plants. We also provide professional consultancy services in landscape gardening and development. Using the latest technology and modern horticultural practices, the company offers professional, independent advice and the highest quality of service nationwide. We are a prime exporter of planting materials to Gulf countries, with availability of all types of indigenous, wild, and exotic plant species.
We proudly operate one of the largest horticulture nursery units in North India, supplying premium quality planting materials. Our expertise extends to mass plantation, avenue plantation, and Miyawaki plantation projects, ensuring sustainable and impactful green development.

Our Team

Plants World has a team of professionally qualified experts from horticulture backgrounds and an experienced, dedicated horticulture workforce. Our team includes landscape architects and designers with innovative ideas, capable of creating the finest landscape gardens and transforming outdated spaces into environmentally friendly, low-maintenance, and beautiful garden designs.Our experienced and fully qualified professionals in landscape design can assist with all landscaping needs—from establishing new gardens to redesigning entire sites, as well as enhancements such as replanting, garden irrigation, and other improvements.

Whether designing a new landscape garden or redesigning an existing site, our focus is on the creative use of plants and plant selection, decorative pathways including brick paving, high-quality garden development features such as vertical green walls, plant boxes, soil improvement, effective water irrigation systems, and plant nutrient management. These are all integral elements of modern, sustainable landscape garden design.

Professionally managed landscape and gardening company.

Our Various Nurseriesa

PLANTS WORLD has more than 50 Acres of land devoted to Plants Nursery at JP NAGAR, GAJRAULA, UTTAR PRADESH. The nursery is situated in a pollution free zone where nature has given all her blessings. All types of plants (indoor,outdoor and potted plants), trees, palms, ferns and vines including making of bonsai are grown in the nursery with utmost care. These plants are then transported to all corners of India.

Our second nursery is in Mehrauli, New Delhi Known As Plants World, Bhardwaj Farm from where we supply plants exclusively to Delhi and NCR (Noida, Ghaziabad, Faridabad and Gurgaon).From these well established nurseries we also supply plants on retail and wholesale basis and place themin various offices and commercial establishments on rental basis in Delhi and Ncr Region.

We also have Associate Nurseries in 24 PARGANAS and KOLKATTA in WEST BENGAL and RAJAHMUNDRY, ANDHRA PRADESH.

Our Services

Landscaping and Gardening, Garden designing Tree plantation.

Our Landscape Garden Design Approach:

- Our garden designs draw inspiration from nature, working with the natural contours of each plot and using natural materials with complementary planting.
- While we emphasize harmony with nature, our priority is always to create a garden that reflects each client's individual requirements.
- To achieve this, we incorporate the client's key elements together with our unique ideas, forming a harmonious, naturally styled whole.
- Following initial construction, if commissioned, we prepare Landscape designs using 2D & 3D Auto cads also allowing and provide clients to view their personal design both as a scaled plan and in 3D images.
- Once the design is completed, we arrange a convenient viewing appointment—usually at our office—where we explain and discuss the design, make any minor alterations, show recommended material samples, and advise on plant types
- We then provide clients with a plant catalog and brochures, along with a copy of the scale plan better understanding of Landscape and Gardening highlights.
- Our company is also happy to undertake construction for certain designs. However, if clients prefer to hire their own contractors, we can provide ongoing support during construction, charged on a per-visit basis.
- Additionally, we offer a full planting plan and supply service to complement new designs or enhance existing landscapes.
- This service may be quoted individually or included within the total construction quotation, depending on client requirements.
- At Plants World, customer satisfaction is our first and foremost priority. We are committed to delivering the highest quality gardening services and supplying premium planting materials, ensuring excellence from start to finish.

We are the largest plants suppliers of North India.

Other Services

Nursery designing

Creating beautiful and functional nursery spaces with proper plant arrangement, pathways, shading, andirrigation planning for healthy plant growth.

Palm plantation designing

Expert planning and layout for palm tree plantations, ensuring proper spacing, soil preparation, and aesthetic landscape appeal.

Construction of shade houses, green houses

Building durable shade houses and greenhouses to protect plants from harsh weather and provide controlled growing conditions.

Construction of poly tunnels

Developing high-quality poly tunnel structures for seasonal farming, crop protection, and improved agricultural productivity.

Designing and Installation of irrigation systems

Customized irrigation solutions including drip and sprinkler systems for efficient water management and healthy plant maintenance.

Terrace Gardening

Transforming rooftops into green spaces with creative terrace garden designs for vegetables, flowers, and relaxing natural environments.

Plants World Nurseries is a premier, full-service green partner specializing in end-to-end horticultural engineering and landscape design. Our expertise spans nursery and palm plantation layout planning, the robust construction of climate-controlled greenhouses, shade houses, and poly tunnels for protective cultivation, and the installation of water-efficient, automated drip and sprinkler irrigation systems. Committed to transforming spaces, we also design premium, lightweight terrace and rooftop gardens, seamlessly blending modern agricultural technology with sustainable urban greening solutions.

Corporate Social Responsibility of Plants World

PLANTS WORLD Nurseries is a leading name in the gardening industry however being a leader means more than being the most successful. It also means clearing new paths and setting an example concerning corporate social responsibility. While it is true that Plants World Nurseries is in the green, as in gardening business, we also want to continue to promote and work in an environmentally responsible and sustainable way. We want to establish ourselves as a company who informs the public about the sustainable issues. Whether it's about communicating the positive impact of planting a sapling/ tree, creating environment awareness amongst school children, colleges, resident welfare societies etc, passing on gardening tips at the retail level or distribution of free saplings we need to let the public know that not only do we offer gardening services but we are experts on green gardening.

Green Initiatives

"More than a gardening service, we are sustainability experts greening the world one sapling at a time."

- Creating environment awareness amongst people through celebrating **"World Environment Day".**
- Distribution of Sacred Saplings/ Plants like Tulsi free of cost in our nursery.
- Environment Classes & Eco-Visits of School Children.
- Organizing environment awareness programs through use of ICT, events, displays, campaigns etc.
- Promoting Knowledge Gardening.

1. Public Awareness & "Knowledge Gardening"

We believe that education is the root of sustainable change. We actively use our expertise to inform and inspire the community. World Environment Day: Hosting annual celebrations and community events to highlight the urgent need for environmental conservation. ICT & Digital Campaigns: Leveraging Information and Communication Technology (ICT), digital media, interactive displays, and targeted campaigns to spread green gardening tips and sustainability practices to a broader audience. Retail-Level Guidance: Using our retail spaces as educational hubs where customers receive expert advice on sustainable plant care and eco-friendly gardening practices.

2. Youth Education & Eco-Visits

To secure a green future, we must nurture the next generation of environmental caretakers. Eco-Visits for Schools: Welcoming school and college students to our nurseries for hands-on learning experiences. Environment Classes: Teaching children about the vital role trees and saplings play in our ecosystem, fostering a lifelong love for nature.

3. Community Engagement & Sacred Greenery

We actively bridge the gap between people and nature by making planting accessible to everyone, including Resident Welfare Associations (RWAs) and local communities. Free Sapling Distribution: Periodically distributing free saplings to encourage individuals to take their first step toward greening their surroundings. Sacred Plant Initiatives: Distributing revered and ecologically beneficial plants-such as Tulsi-free of cost at our nurseries to blend cultural traditions with environmental wellness.

Some of our Prestigious Clients

PLANTS WORLD Nurseries has proudly collaborated with renowned organizations, developers, institutions, and corporate groups across India. Our commitment to quality landscaping, plantation, irrigation, and green infrastructure solutions has earned us the trust of prestigious clients from various sectors.We have successfully contributed to projects for leading companies, residential developments, educational institutions, hospitality groups, and infrastructure organizations. Our client relationships are built on professionalism, innovation, timely execution, and sustainable green practices.

With every project, we strive to deliver excellence in landscaping and environmental solutions while creating long-term value for our clients and communities.
